ODNI-RFI-14-01

Notice Type:

Special Notice

Synopsis:

Added: Feb 05, 2014 4:31 pm

The Office of the Director of National Intelligence (ODNI) is investigating whether existing commercially available capabilities can provide for a new approach to the government's telephony metadata collection program under Section 215 of the USA Patriot Act, without the government holding the metadata. Responses to this RFI will be reviewed and may help to shape the framework for the future telephony metadata program to include the potential for non-government maintenance of that data.
